

WHERE AM I NOW?

**We come from many different places!
Some of us come from very far and some
of us come from somewhere closer.**

**My great
grandmother
came to Chicago
from the state
of Mississippi.**

**My mom came
to Chicago from
Mexico.**

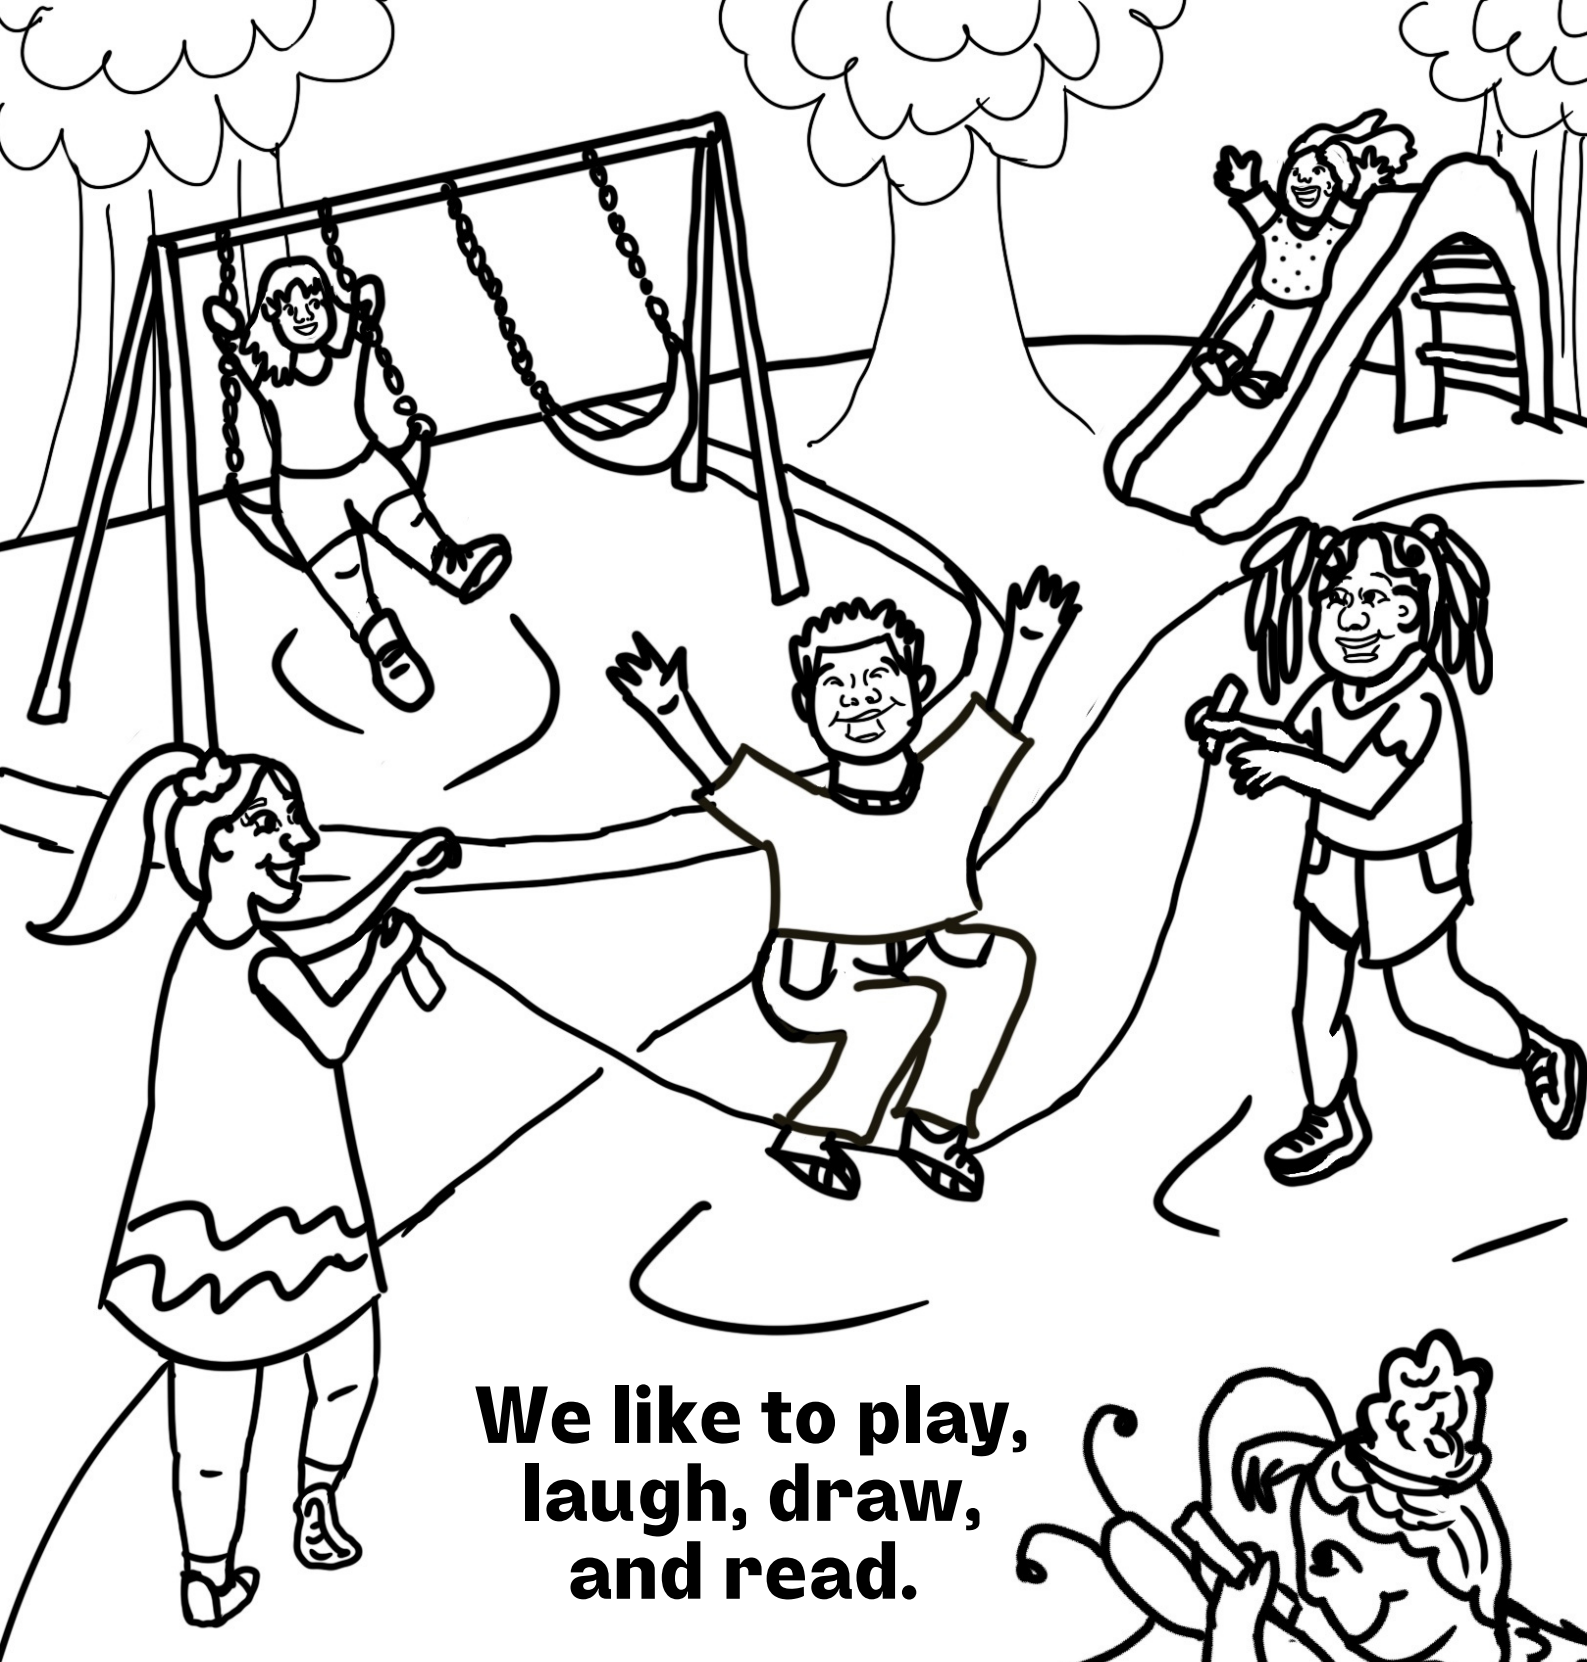

**And I just came
here from
Venezuela!**

Some people may not understand our journeys. But there are many more people that are happy to help us regardless of where we are from.

We are all from different places, we talk differently, we look different...but we are also very similar in so many ways!

**We like to play,
laugh, draw,
and read.**

**We like to jump,
race, and play
pranks!**

**We would love to
make new friends!**

Some of us miss the homes we used to live in, we miss our families and friends we left behind.

We want to be happy and to live in a safe world. Chicago is a place where this can happen.

TOGETHER, regardless of how we look or where we're from, we can make this a reality for everyone!

**Thank you to all who made
the creation of this book
possible!**
